

Social Skills

Social Skills are the Foundation of getting along with others and it begins in childhood. Having and maintaining healthy relationships is the cornerstone of psychological health and happiness and eventual success in society.

Our Social Skills Programs are specially designed for Mainstream and Special Needs children.

Poor Self Esteem
Learning Difficulties
Developmental Delay
ADHD Autism

Primary School Preparation Program in Social Skills for children with Autism

Exclusive Program!

Our Programs

3 Levels (Beginner/Intermediate/Advanced) that address your child's specific needs.

The sessions are conducted in dyads/triads, up to 6 children, depending on the needs of your child. As your child progresses socially the aim is for him/her to function effectively in a larger group.

*(Levels are approximate/guides, as all programs are ability-based)

Ages 3 to 12
